TO: Greenheck Mechanical Representatives
FROM: Matt Gaedtke
Segment Manager, Laboratory and Fume Exhaust Systems
DATE: September 14, 2017
SUBJECT: FumeJet® Receives Consulting-Specifying Engineer
2017 Product of the Year Silver Award

Greenheck is excited to announce that our FumeJet® fume exhaust system has been selected as one of the best new products of 2017 by the readers of Consulting-Specifying Engineer (CSE). The FumeJet® has taken the Silver award in the HVAC category of CSE's Product of the Year program. As an award winner, the FumeJet® will be highlighted in the September 2017 issue of Consulting-Specifying Engineer. [Visit CSE magazine](#) to read more about the Product of the Year program.

The FumeJet® packages efficient centrifugal fans with inlet accessories and configurable stacks to simplify design and installation while safely expelling fumes and odors. Our pre-engineered solution includes certified performance data and 115 mph wind load capabilities without guy-wires. Our most recent additions to the family include “No-Loss Stacks” and “Spring Curb Cap” options.

The Lab and Fume Team thanks our valued rep partners for the many product ideas and overall effectiveness in selling our Vektor® and FumeJet® systems. Your continued success helps keep our team focused on new innovations to stay ahead of our competition.
